

## Johnson County Imaging Breast Health Event

**W**hile most women understand the importance of annual mammograms, many find it difficult to fit into their daily lives. That's why Johnson County Imaging Center partners with organizations within the community to reach out to women to provide an alternative option for obtaining screening mammograms. Johnson County Imaging partnered with Surviving the Odds Foundation to reach out; on Saturday, March 7, a chartered bus rolled into the parking lot of Johnson County Imaging with women from the community united to encourage and support one another while each received their annual mammogram. JCI is dedicated to the health and wellness of our community and will continue to work with organizations, businesses and groups to promote breast health. To support breast health, consider attending the 2015 Art Bra Event on May 1. To purchase tickets, visit [artbrakc.com](http://artbrakc.com). To host a mammography event for your organization, contact Johnson County Imaging at 913-469-8998 or visit [johnsoncountyimaging.com](http://johnsoncountyimaging.com). **HLM**
